A WOODEN INTRODUCTION.

How Gainsborough Got Acquainted With Thicknesse.

Gainsborough the artist, was born at Sudbury, in England, and there. says Lord Ronald Gower, he designed his first work of art. The orchard of his father's place had been repeatedly plundered of fruit. No one knew who the thief might be until one day young Gainshorough saw there a rough look ing man leaning his eshows on the brick wall. He made a sketch of the fellow, and from this portrait the thief was afterward identified.

Later the boy cut out a rough figure from wood and painted it in oils in the likeness of this man. The senrecrow was known as "Jack Peartree." probably represents Gainsborough's first attempt at working in alls.

It was the means of introducing the artist to one of his most intimate friends. Thicknesse, the Beutenant governor of the Landguard fort, near Ipswich. Thicknesse was one day walk ing with a friend when he perceived what seemed to be a melancholy faced countryman, with his arms locked together, leaning over the garden wall.

He prosted out the doleful figure to his companion, who, it seems, was acqualited with it.

'He has been there nil day," said the gentleman, "I pity him. He must beeither mud or very moremble.

Thicknesse insisted on approaching surprise found him to be Jack Penrfree So charmed was he with Jack The most reliable preparation on that he lest no time in becoming acquainted with the author of Jack's being, with the result of a warm and lasting friendship.
